Please read: Infection Precautions for In-Person appointments

To keep us all safe:

- **Face masks are highly recommended** if you are immunocompromised, if you are at high risk of contracting infections or if you have any chronic respiratory symptoms such as cough/sneezing. Please bring your own face mask. If you forget, you can purchase one at the dispensing machine in the waiting room for \$2 using your credit/debit card (surcharges apply).
- Please **DO NOT** attend this appointment if you have **any new onset infectious symptoms such as:**
 - **Fever**
 - **Chills**
 - **Headaches**
 - **Sore throat**
 - **Cough**
 - **Runny nose**
 - **Loss of smell/taste**
 - **Diarrhoea**
 - **Vomiting**

You can book in for the *Infectious (In Person) appointment* instead and we will see you in our Precaution Room outside the clinic. Alternatively, please call our reception team at 03 90883258 for assistance.

- If you are potentially infectious, please wait in your car or outside the clinic (weather permitting) where possible and give us a call on 03 90883258 to let us know you have arrived. You will be called by our clinical team when we are ready for you. We understand that it may be sometimes difficult to wait in your car or outside the clinic if the weather is bad, or if you have an infant or toddler – if this is the case, please let our reception team know to assist you accordingly.
- Please attend alone and only ONE parent can accompany a child (unless prior arrangement has been made with your GP or nurse).

Thank you for your co-operation and understanding.

The Crane General Practice.
